Schedule of Works

Suggested mounting location diagrams:

Installer

- Locate ½ inch male BSP connection to cold water supply in cupboard underneath kitchen sink.
- Install the components of the WFA HiFlow water filtration system under kitchen sink in accordance with the installation instructions supplied.
- Ensure that all plumbing work carried out in the installation of the system complies with Australian Standard AS3500.
- When installed purge air from system for 2-3 minutes.
- Fix any leaks if present.
- Complete warranty card online at www.waterfiltersaust.com.au or mail to WFA
- Activate Cartridge Monitor Alarm

ges.

Do not use the WFA HiFlow In-Line Water Filter System with water that is microbiologically unsafe, or of unknown quality without adequate disinfection before or after the system; the WFA HiFlow In-Line Water Filter System is certified for cyst reduction and may be used on disinfected waters that may contain filterable cysts.

The contaminants or other substances removed by this water treatment system are not necessarily in your water. Check for compliance with state and local laws and regulations.
